

Global IP Network

Make our Tier 1 Global IP Network the foundation for your connected future.

The Global IP Network of NTT is one of the world's largest and top-ranked Tier 1 IP backbones.

Our dual-stack Tier 1 global IP backbone spans the Americas, Europe, Asia and Oceania on a single AS2914. We operate the largest transpacific network and our capacity is always growing. With our private peering, industry leading Service Level Agreements (SLAs) and the financial backing of one of the world's largest telecommunications companies*, you can be sure that your content, data and video are always moving to where they need to go; safe and fast.

Our customers get the same provisioning and support, no matter what bandwidth they use. Whether it's 1Gbps, 100Gbps or a bandwidth in between, our dedicated Sales and Engineering teams will work with you to select the most effective way to connect to our network.

- One of the Largest IP Backbones in the World
- Financially Backed by NTT, a top 100 corporation in the Fortune 500 Global List of 2022
- Lightning Fast Provisioning
- Award Winning 24x7x365 Customer Support

Products and Services*
